experience

- 2011 – **Siyavula Education** Cape Town
Technical Coordinator / Software Developer
Responsibilities:
- Development and maintenance of Python software for XML document validation and conversion to publishing formats (HTML5, \LaTeX , EPub 3.0, Mobile Web)
 - Implementation and maintenance of \LaTeX style sheets for print book PDF generation. See PDF downloads on:
<http://www.thunderboltkids.co.za>
<http://www.curious.org.za/>
<http://www.everythingscience.co.za>
<http://www.everythingmaths.co.za>
 - Management of technical aspects of textbook translations
Maintenance of *Transifex* server
XML conversion to and from translation formats
 - Developing proof of concept models and testing of new tools and technologies for possible inclusion in current processes.
 - Development of custom modules in the Plone CMS related to online hosting of textbooks
 - Contributing to related open source software development projects including:
OERPub Editor: <http://oerpub.github.io/Aloha-Editor>
AnnotatorJS: <http://annotatorjs.org>
- 2008 **University of Cape Town** School of Geomatics
Lecturer
- Lectured spherical trigonometry and map projections as part of Geographical Informations Systems I (2nd year course)
 - Lectured part of the Basic Surveying I course (2nd year course)
- 2006 – 2010 **University of Cape Town** Department of Astronomy
Course Tutor
Astronomy I, Astronomy II, Spectroscopy NASSP Honours Course
- 2001 – 2004 **James Mahon Landmeters** Pretoria
Student Surveyor
Assisted in various types of survey projects. These included precise engineering surveys, sectional title surveys, boundary disputes, setting out of townships and parcels, topographical surveys. Also assisted in other cadastral type work such as subdivisions of farms and parcels, servitude surveys and beacon relocation surveys. The work included calculation of fieldwork and the checking of diagrams for accuracy.

education

2009 – 2011

(Incomplete)

PhD in Astrophysics and Space Science

University of South Africa

Thesis: A Study of Selected Magnetic Cataclysmic Variables

Relevant skills:

- Reduction and analysis of high time-resolution observations obtained using the Southern African Large Telescope (SALT)
- Computationally intensive calculations (genetic algorithms, utilising neural networks) performed using ROCKS (www.rockclusters.org) cluster computing environment.
- Scientific observations using the High-speed polarimeter (HIPPO) on the SAAO 1.9m telescope in Sutherland
- Development of custom analysis and visualisation software using Python and related tools.

2006 – 2008

M.Sc. in Astrophysics and Space Science

University of Cape Town

Coursework: Plasma Physics, Magnetohydrodynamics, Extragalactic Astronomy, Observational Cosmology, Cataclysmic Variables

Dissertation: High-speed Photometry and Spectroscopy of the Cataclysmic Variable EC2117-54 : Exploring New Avenues With the Southern African Large Telescope

2005

B.Sc.(Hons) in Astrophysics and Space Science

University of Cape Town

Coursework: Electrodynamics, Quantum Mechanics, Stellar Atmospheres, Stellar Structure and Evolution, Computational Physics, General Relativity, Galaxies, Observational Techniques, Radio Astronomy

2001 – 2004

B.Sc. in Geomatics

University of Cape Town

Coursework: Surveying, Geographic Information Systems, Computer Science, Remote Sensing, Mathematics, Physics, Astronomy, Numerical Methods, Land Law, Engineering Surveying, Photogrammetry

skills

Programming languages: Python, Javascript, Fortran, C/C++, \LaTeX

Operating Systems: Linux (Ubuntu, Fedora Core, Mandriva), Microsoft Windows

Applications: git, scipy, matplotlib, pyfits, numpy, vpython, cython, swig, f2py, pygame, parallepython, subversion, mercurial, Mayavi, IRAF, Gnuplot, \LaTeX , OpenOffice, Scribus, GIMP

Surveying Instruments: Digital and Opto-mechanical Theodolites, Static and Real Time Kinematic GPS systems, Precise Levels, Dumpy Levels.

Astronomical Observing: 110 nights observing experience on SAAO 1.9m and SAAO 1.0m Telescopes using the SAAO High-speed Polarimeter, UCT CCD Photometer, SAAO CCD Photometer

Miscellaneous: Exceptional analytical and problem solving skills, technical software programming and design capabilities, Object oriented programming, strong verbal and written communication skills.
