experience

2011 –

Siyavula Education

Cape Town

Technical Coordinator / Software Developer

- Development and maintenance of Python software for XML document validation and conversion to publishing formats including HTML5, \LaTeX , EPub 3.0 and Mobile Web.
- Implementation and maintenance of \LaTeX style sheets for print book PDF generation. See PDF downloads at:
 - <http://www.thunderboltkids.co.za>
 - <http://www.curious.org.za>
 - <http://www.everythingscience.co.za>
 - <http://www.everythingmaths.co.za>
- Management of technical aspects of textbook translations including:
 - Maintenance of *Transifex* server.
 - XML conversion to and from translation formats.
- Developing proof of concept models and testing of new tools and technologies for possible inclusion in current processes.
- Development of custom modules in the Plone CMS related to online hosting of textbooks.
- Contributing to related open source software development projects including:
 - OERPub Editor: <http://oerpub.github.io/Aloha-Editor>
 - AnnotatorJS: <http://annotatorjs.org>

2008

University of Cape Town

School of Geomatics

Lecturer

- Lectured spherical trigonometry and map projections as part of Geographical Informations Systems I (2nd year course).
- Lectured part of the Basic Surveying I course (2nd year course).

2006 – 2010

University of Cape Town

Department of Astronomy

Course Tutor

Astronomy I, Astronomy II, Spectroscopy NASSP Honours Course.

2001 – 2004

James Mahon Landmeters

Pretoria

Student Land Surveyor

Assisted with various types of survey projects including precise engineering surveys, sectional title surveys, boundary disputes, setting out of townships and parcels, topographical surveys. Also assisted with other cadastral type work such as subdivisions of farms and parcels, servitude surveys and beacon relocation surveys.

education

2009 – 2011

(Incomplete)

D.Phil. in Astronomy

University of South Africa

Thesis: A Study of Selected Magnetic Cataclysmic Variables

Relevant skills:

- Reduction and analysis of high time-resolution observations obtained using the Southern African Large Telescope (SALT).
- Computationally intensive calculations (genetic algorithms, utilising neural networks) performed using ROCKS (www.rockclusters.org) cluster computing environment.
- Scientific observations using the High-speed polarimeter (HIPPO) on the SAAO 1.9m telescope in Sutherland.
- Development of custom analysis and visualisation software using Python and related tools.

2006 – 2008

M.Sc. in Astrophysics and Space Science

University of Cape Town

Coursework: Plasma Physics, Magnetohydrodynamics, Extragalactic Astronomy, Observational Cosmology and Cataclysmic Variables.

Dissertation: High-speed Photometry and Spectroscopy of the Cataclysmic Variable EC2117-54: Exploring New Avenues With the Southern African Large Telescope.

2005

B.Sc.(Hons) in Astrophysics and Space Science

University of Cape Town

Coursework: Electrodynamics, Quantum Mechanics, Stellar Atmospheres, Stellar Structure and Evolution, Computational Physics, General Relativity, Galaxies, Observational Techniques and Radio Astronomy.

2001 – 2004

B.Sc. in Geomatics

University of Cape Town

Coursework: Surveying, Geographic Information Systems, Computer Science, Remote Sensing, Mathematics, Physics, Astronomy, Numerical Methods, Land Law, Engineering Surveying and Photogrammetry.

skills

Programming languages: Python, Javascript, Fortran, C/C++, \LaTeX .

Operating systems: Linux (Ubuntu, Fedora Core, Mandriva), Microsoft Windows.

Applications: Git, Pyramid, Plone, Django, scipy, matplotlib, pyfits, numpy, vpython, cython, swig, f2py, pygame, parallepython, Subversion, Mercurial, IRAF, \LaTeX .

Surveying instruments: Digital and Opto-mechanical Theodolites, Static and Real Time Kinematic GPS systems, Precise Levels, Dumpy Levels.

Astronomical observing: 110 nights observing experience on SAAO 1.9m and SAAO 1.0m Telescopes using the SAAO High-speed Polarimeter, UCT CCD Photometer, SAAO CCD Photometer.

Miscellaneous: exceptional analytical and problem solving skills, technical software programming and design capabilities, object-oriented programming, strong verbal and written communication skills.
